### Fully restored traditional building 1 street back of main square

From the street right behind the church you come into the main entrance. leading into the livingroom with fireplace. from here there is access to one side of the building with 2 bedrooms, and to the other side are the other 2 bedrooms. tow are en-suite. Impressive are the high ceilings and the renovation using a lot of original features of the building. Through a small corridor you end up in the living kitchen with plenty of storage and laundry room. Of the kitchen you have an interior garden with stairs to the immense roof terrace. Now fitted with a full deck and suitable to put a pool and o Jacuzzi on the top.

Off the kitchen is a walk through storage leading into a a very large area which used to be garage and is the door to give access to the little square at the back. A beautiful building with a classic front and lots of space.
